

RapidScale HIPAA Gap Assessment

Accuracy that Protects Patient Privacy

Rising Threats in Healthcare

Healthcare's reliance on technology has grown dramatically. So has its vulnerability.

MOST TARGETED SECTOR

The FBI's Internet Crime Report shows healthcare faced more cyberthreats than any other critical infrastructure industry, with 238 ransomware attacks and 206 breaches in a single year.

HIGH STAKES

IBM reports the average ransomware payment by hospitals is **\$4.4M**.

RIPPLE EFFECTS

Attacks on one hospital increase patient load and risk at neighboring facilities.

HIPAA IMPACT

Violations trigger costly fines and irreparable loss of patient trust.

Hospitals and healthcare organizations need more than checklist compliance; they need proactive defense.

RapidScale HIPAA Gap Assessment

In partnership with GoSecure, RapidScale delivers a comprehensive HIPAA Gap Assessment that strengthens your security posture and protects patient health information (PHI)

What You Get

RapidScale offers a clear, prioritized path to HIPAA compliance and stronger defenses against today's most damaging threats.

- **Expert-led review**
Cybersecurity specialists assess risks to PHI and your IT/security systems.
- **Targeted risk analysis** Focused on the most critical vulnerabilities.
- **Compliance mapping & gap analysis** Aligns your security practices with HIPAA requirements.
- **HIPAA maturity profile** Defines where you stand and where you need to be.
- **Actionable roadmap** Executive-ready recommendations with prioritized next steps.
- **Optional in-person briefing** Tailored for C-level leaders and security teams.

Key Benefits

- **World-Class Talent** Backed by a leading security firm and cloud MSP with proven client success.
- **Security-Focused Strategy** Executive-level roadmap for addressing high-priority threats.
- **Thorough Coverage at a Lower Cost**
Gain enterprise-grade expertise without maintaining a full in-house GRC team.
- **Stay Ahead of Compliance** Proactive approach that safeguards PHI and reduces risk of HIPAA violations.

Why RapidScale?

The RapidScale HIPAA Gap Assessment goes beyond compliance to deliver security excellence. With structured project management, targeted risk prioritization, and clear executive reporting, we help healthcare organizations reduce breach risk, avoid costly fines, and protect patient trust.

Avoid HIPAA violations. Strengthen your defenses. Protect patient data with confidence.
